Forecast for Tuesday 15 Mar 2022

Weather: Cloudy but mainly dry through the early hours and to start the day. Rain, snow above 700-800m, spreads into the west coast by around midday. Persistent rain then spreading across all ranges through the afternoon, with snow above 900-1000m. Becoming dry with some clear spells near the west coast towards midnight.

Chance of cloud-free hill tops above 800m: 80% in the morning, falling to nil in the afternoon.

Low Cloud and visibility: Good in the morning outside any low cloud. Falling poor in the afternoon at height, a few km at low levels in heavier outbreaks of rain. Cloud bases mostly above the tops, but occasionally 1000m in the west during the morning. Cloud then gradually lowering to around 700m around early afternoon.

Met Office Aberdeen Meteorologist's View

Severe gales across the summits for much of the day will have the potential to lift you off your feet.

Forecast for Wednesday 16 Mar 2022

Weather: Mainly dry with clear spells developing from the west through the early hours. Then a bright day with sunny spells, the best of these in the afternoon. A few showers possible in the morning near the west coast. Cloudier conditions may spread in from the west late evening giving the odd light shower.

Maximum wind: Southwest 10-15 gusting 20 mph.

Chance of cloud-free hill tops above 800m: 80%

Low Cloud and visibility: Generally very good. Some patchy cloud may lower to around 1000m at times in the morning.

Temperature: **Glens:** Plus 3 Celsius rising to 7 Celsius
At 800m: Zero Celsius rising to plus 1 Celsius.
Freezing level: Around 800-900m, dropping to 600m by afternoon.
